

Geomechanics and Tunnelling Journal Subscription Offer for new customers 2021

Your advantages as a subscriber

PRINT

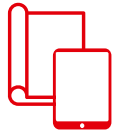

- Delivery by post without dispatch costs, worldwide
- Exclusive in the print issue: brief news, reports from construction sites and news on conferences round off the content

ONLINE

- Simple, web-based reading without special software in the Wiley Online Library
- Permanent online access to the subscribed volumes
- Full-text search

Fax +49 (0)30 47031-240
marketing@ernst-und-sohn.de

Bestellcode: BET20

Under the annual subscription 2021 print + online, 6 issues (Jan-Dec 2021) will be delivered at a special price. Cancellation of the annual subscription is possible at any time if the cancellation notice period is observed. The cancellation notice period is three months to the end of the subscription period. If the subscription is not cancelled, it continues for a further year for the normal price for print + online. The subscription period of the online version is the same as that for the print version. Access to the E-Journal (online issue) is through the Wiley Online Library (<http://onlinelibrary.wiley.com/>). The online service permits the reading of the E-Journal from one geographically coherent location: office, building/campus or town. If access to the E-Journal from more than one location is intended, please contract us.
* € prices are net German prices, plus VAT, incl. postage. The new customer offer GUT20 is valid until 30.06.2021 for new customers of Geomechanics and Tunnelling. The delivery and payment conditions of the publisher and the Wiley Online Library are applicable.
