Steel Construction

Design and Research

International journal for steel construction in
research and practice.

- International journal for steel construction in research and practice
- Membership journal of the ECCS – European Convention for Constructional Steelwork
- Publication of peer-reviewed papers
- Distinguished Editorial Board
- Dissemination of substantiated expert knowledge

The international journal Steel Construction – Design and Research publishes peer-reviewed papers covering the entire field of steel construction research and engineering practice, focusing on the areas of composite construction, bridges, buildings, cable and tension structures, façades, glass and lightweight constructions, also cranes, masts, towers, hydraulic structures, vessels, tanks and chimneys plus fire protection. Steel Construction – Design and Research is the engineering science journal for structural steelwork systems, which embraces the following areas of activity: new theories and testing, design, analysis and calculations, fabrication and erection, usage and conversion, preserving and maintaining the building stock, recycling and disposal. This journal is therefore aimed not only at academics, but in particular at consulting structural engineers, and also other engineers active in the relevant industries and authorities.

The high quality of the papers is ensured by a scientific editorial board made up of internationally renowned researchers and practising engineers.

ISSUES

TOPICS

1

PD: 17.2.20
AD: 17.1.20
ED: 16.1.20

- Composite Structures
- Steel frame structures
- Steel Bridges
- Standards (e.g. Eurocodes)
- Structural glazing
- Lightweight constructions
- Façades and roof sheeting
- Cable and membrane structures
- Tubular structures
- Space frameworks
- Offshore structures

2

PD: 18.5.20
AD: 16.4.20
ED: 15.4.20

- Wind turbines
- Cranes, masts, towers
- Vessels, tanks and chimneys
- Hydraulic structures
- Stability
- Connections
- Steel frames
- Shells and plates
- Cold-formed sections
- Welding
- Refurbishment

3
